

Grozelle Bio:

Joanne Grozelle is the Director of Business Development and Marketing at Nordion. She has worked in a variety of industries; automotive, high tech and plastics, before starting her 12 year career in the nuclear industry. She began her career at Nordion as the production manager for Molybdenum-99 before becoming the Director of Operations for Nordion's Theratronics plant which manufactured Co-60 External Beam Therapy units, prior to its divestiture from Nordion. She was the Global Brand Manager for a targeted liver treatment, TheraSphere, successfully driving acceptance and growth of the product into new geographies. She is now responsible for execution of Nordion's Medical Isotopes strategic initiatives with a strong focus on Nordion's new isotope supply. Joanne has a degree in Chemical Engineering from the University of Ottawa and a Masters of Business Administration from Queens.
