

## Heather Kleb – Bio

Heather Kleb is the President of Women in Nuclear-Canada. She is also a Senior Program Manager in the regulatory affairs program at Bruce Power. Heather has a Master of Science in Ecology. She has also recently completed the Executive MBA program at Queen's University. Heather has over 20 years of experience working on multi-million dollar projects in the logging, mining, oil and gas and nuclear industries. Heather has worked as an environmental consultant, monitoring Luscar Limited's coal mines and conducting environmental assessments of Weyerhaeuser's Forest Management Plans in Alberta and Saskatchewan. She has worked overseas for Anglo American, providing environmental assessment, environmental monitoring and management services to AMCOAL, De Beers, and AngloGold while in South Africa, Botswana and Mali. She has held a number of positions at Atomic Energy of Canada Limited, including Manager, Regulatory Affairs for the cleanup and long-term management of historic low-level radioactive waste in Port Hope and Clarington, Ontario. Prior to her current appointment at Bruce, Heather was Vice President of the Canadian Nuclear Association and its Interim President & CEO.
